Work Experience

Code for Oakland

Developer   Jun 2014 — present

building a Node.js API with a MongoDB backend for Oakland, CA's crime, punishment and policing data. Also building client side applications consuming my own API using D3.js, jQuery and Angular.js

Platform45

Javascript developer   Apr 2014 — Jun 2014

began work on a music sharing app using MongoDB, Node.js and Angular.js

Nairobi Dev School

Javascript Instructor   Feb 2014 — Apr 2014

taught javascript to eager learners in Nairobi, Kenya

Kampala.js

Organizer   Dec 2013 — Jan 2014

Organized a javascript meetup and participated in a Code for Democracy Hackathon where I began building a Rails polling app called "Sindika", meaning Speak in Ugandan

MyAfricaStyle

Developer   Oct 2013 — Nov 2013

Began work on an ember.js/ROR app to sell clothes from Rwandan fashion designers to the world

Dairy Desk

Junior Ruby On Rails developer   Jun 2013 — Oct 2013

coded a ROR app to monitor milk deliveries in rural Rwanda

Education

UC Santa Barbara   2007 - 2011

BA Political Science
